The screenshot shows a marketplace interface with three tabs: 'Listing', 'Feedback (2)', and 'Discussion'. The 'Listing' tab is active, displaying a product titled 'International passport scans ID templates and Various scans Fraud'. The product image shows several passport covers from different countries. The price is listed as € 15.37 (0.00284 B or 0.161932 XMR). There are five star ratings and a 'Secure Payment Option' badge. The shipping is listed as 'Worldwide'. A 'BUY' button is visible at the bottom right. Below the product image, there is a text box asking 'Do you have a discount coupon?' and a 'Select your shipment method' dropdown menu.

# Investigations are labour-intensive

- Hosts change often
- Information gets lost
- Information is scattered
- Criminals are cautious
- You can't use Google

## Web-I-Qube® - Darknet in a box

### A platform to support darknet investigations

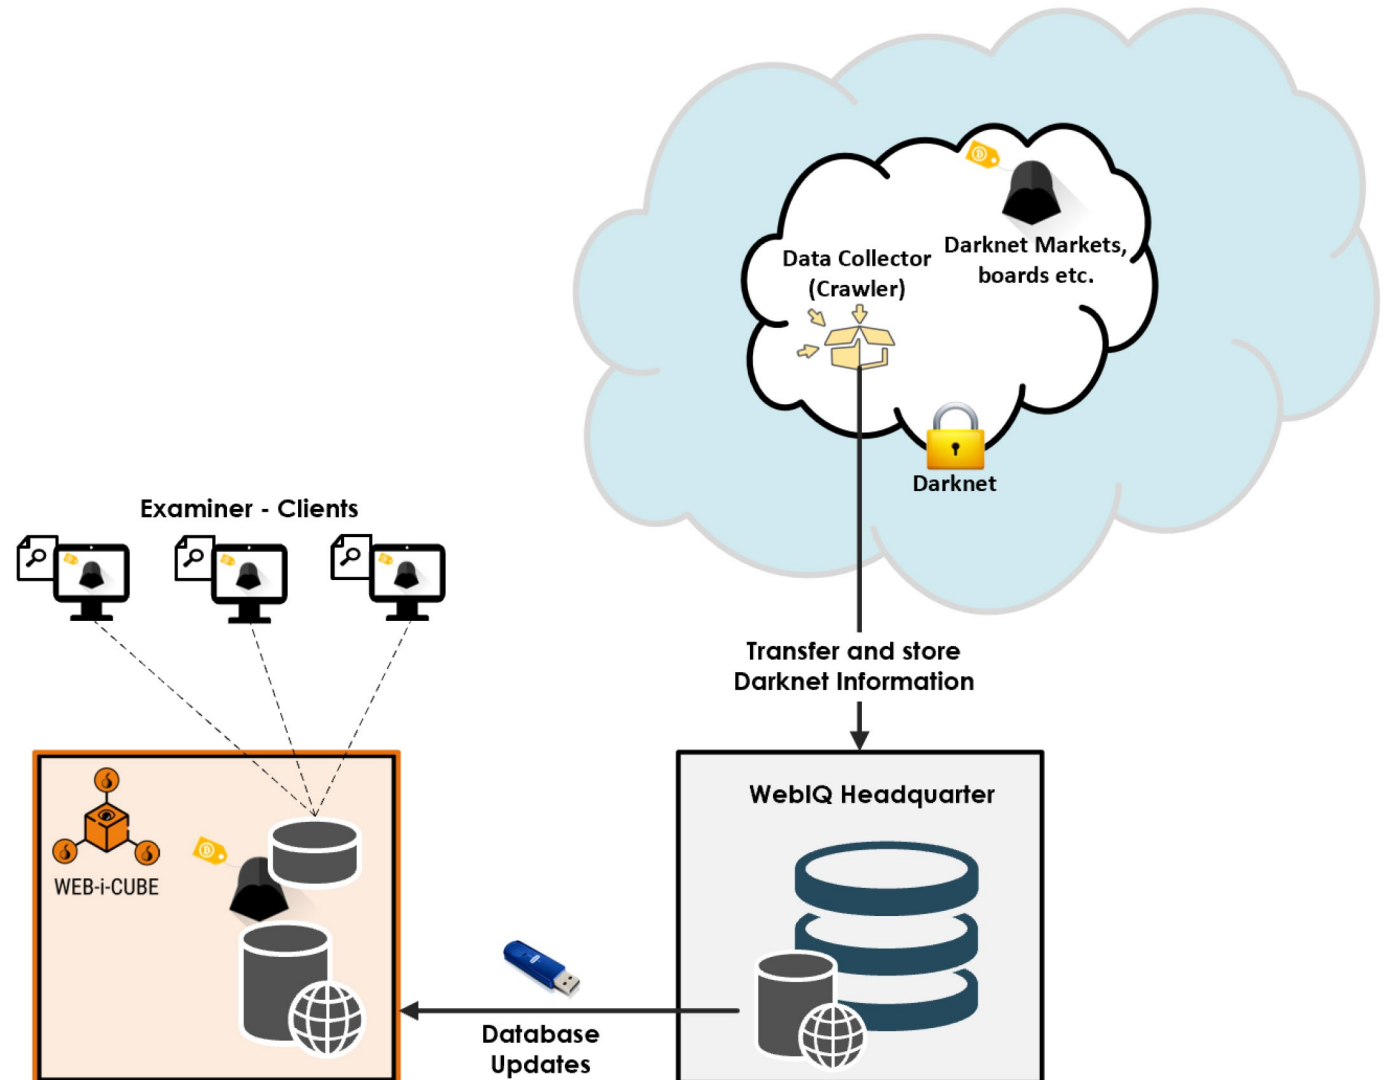

- An investigation platform with online content that can be governed offline
- Full control over your data, have your intelligence on your premises
- Contains countless entries from forums and markets
- Statistical evaluations are visualized and clearly displayed on the dashboard
- Entities are categorised, such as names, usernames etc.

## Investigate online content offline

Web-I-Qube
Cannot be hacked
No storage at third party's system needed
Full control over your data
Information on your premises
Pages are preserved for court

## DARKNET Web-I-Qube®

- Databases are supplied by the system provider **Web-IQ**
- New content and updates are recorded and sent either online or via data carrier to the client.
