UFED Touch3
Data Sheet

Introducing the new Cellebrite UFED Touch3 – for comprehensive extraction capabilities anywhere, whether in the lab or in the field.

Extract data quickly and securely, eliminating any risk of cross-contaminating digital evidence.

UFED Touch3 is a turn-key solution for collection capabilities with upgraded hardware for an enhanced user experience and functionality.

Benefits include:

Fully ruggedized tablet
Military Standard 810G for reliability in the toughest environments.

Open Windows image
For simple and easy integration to organization network and systems. Can be fully managed by IT according to agency policies.

8-inch screen with high quality resolution
For increased viewing.

Docking station as part of package
For improved office experience that transforms your Touch3 into a small workstation.

Built-in camera
For capturing and uploading evidence images without additional device input.
